

TOOLS OF SOCIAL SCIENTISTS

It is the year 5017 C.E. and archeologists have uncovered the ruins of Roslyn High School. Searching through the ruins they discover the following items:

A basketball trophy made of bronze

A 2017 High School Yearbook

A student's notebook

An American Flag

A Samsung phone

Name six things that an archeologist could learn about our society by examining these items.

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

Which of these items would provide the most information about our society?
